

HLK-430/HLB-430

Direct drive electronic bartacking
/ button sewing machine

iHighlead

HLK-430

Sewing speed: HLK-430 3200R.P.M, HLB-430
2700R.P.M

Direct drive, saving energy, intelligent control system,
stable Dry head, no oil pollution, high quality of low
tension sewing, perfect stitch.

Good at sewing heavy material and sewing material
adaptability, high productivity.

HIGHLEAD

HLK-430/HLB-430 Direct drive electronic bartacking/button sewing

HLK-430 direct drive electronic bartacking machine and HLB-430 direct drive electronic button sewing machine are two sub-class products of Highlead brand electronic pattern sewing machine series. They are equipped with mini powerful direct drive servo motor, Chinese professional pattern sewing intelligent control system and high accurate stepping motor for feeding and presser lifting. With dozens of standard bartacking and button sewing patterns stored in a built-in system, the user can upgrade the software and edit patterns quickly and conveniently by using a universal memory card. The special operating panel with the machine enables users to set and modify the sewing modes and parameters easily within the range of 40 x 30mm. With an optional pattern editing software, pattern sewing can also be done within this range, but the special presser foot should be purchased additionally. These subclasses have semi dry machine head only with minimum oil supply in hook and special grease on other movable parts, so they are featuring no contamination for fabrics, easy operation, simple maintenance, wide application and high production efficiency as an ideal equipment for producing garments.

Model	HLK-430	HLB-430
Stitch type	Single needle lock stitch	
Max. sewing Speed	3200 R.P.M	2700 R.P.M
Sewing area (X-Y)	Max. 40X30 mm	Max. 6.4X6.4 mm
Stitch Length	0.05 - 12.7 mm	
Stitches	At discretion (for stored patterns, please refer to "List of Programs")	
Max. stitches	210,000	
Presser foot lifting type	Stepping motor	
Presser foot / Button clamp lift	Max. 17mm	Max. 13mm
Feed type	Stepping motor	
Thread winding device	★	
Thread trimming device	Optional	
Thread nipping device	CF-card	
Data storage	50	
User program	9	
Cyclic program	220V550W Servo motor	
Main motor	Shuttle Hook	
Hook		
Needle size	DPx17 NY 19# 89 Patterns	DPx17 NY 12# 49 Patterns
Number and stored data	Max. 200 Patterns with the range of 100,000 stitches	
Button diameter	8-30 mm (Use optional button. Clamp B for 200mm above)
